Society for Pharmaceutical Dissolution Science (SPDS)

Society for Pharmaceutical Dissolution Science was formed on 16th July 2012 in Mumbai with the objective of promoting science and technological development in the field of Dissolution Testing among pharmaceutical professionals, academia, students, regulatory bodies, etc.

SPDS is the only professional body dedicated to Dissolution Science and its Applications.

Vision : To be one of the most prominent professional bodies focusing on Dissolution Science among the Pharmaceutical Industry, Academia and Regulators.

Mission : To disseminate science and advancement taking place in the field of dissolution related to clinical applications and methods.

Association of Pharmaceutical Teachers of India (APTI)

An association founded by the pioneers of Pharmacy education in India in 1966 by leading personalities like Prof. M. L. Schroff, Prof. G. P. Srivastava and others, has come a long way in creating better intercommunication and promotion of excellence in pharmacy education. Through its tailor-made mission and objectives, the association has provided a single platform in bringing together teachers of pharmacy education from all over the country. This has helped in the achievement of excellent standards and to develop new technological methods in pharmacy education through the exchange of views amongst the teaching members.

APTI celebrating its 53 years, today has more than 10,000 (Ten Thousand) life members apart from a sizeable number of associate life members and student members from all over the country. The association with its activities is providing a robust platform for bouncing avant-garde ideas of the members in the academic fields through newer teaching methodologies, fabrication of tools, computer aided drug designs and other applications through interaction with industry, hospitals, regulatory bodies and community pharmacy.

State of Art World Class Centre of Excellence for Dissolution Science and Applications

Society for Pharmaceutical Dissolution Science (SPDS) has planned to set up a Centre of Excellence with the purpose of educating and training graduate and post graduate pharmacy students, research scholars, industry professionals and regulators in the area of dissolution testing and applications through Online / Offline courses and seminars. Besides, PhD and post doctoral students and young scientists who wish to undertake research experiments / projects in the field of Dissolution Testing and Applications can avail this facility.

To set up this Centre of Excellence, SPDS needs large resources in terms of finance, scientific talent, instrumentation and adequate space. We request all pharmacy students, research scholars, faculty, industry professionals to donate minimum of Rs. 500/- (Rupees Five Hundred) to SPDS.

Donation can be easily made through Credit/Debit Card via gateway in SPDS website. To make your donation, please log on to www.spds.in

Donate Rs. 500/- to SPDS for DRPI 2020 Online and Avail Triple Benefits

1. One Free delegate pass to the Zonal Events (4th and 5th June 2020) and All India Final Event (7th June 2020)
2. A complimentary licensed 'read only' copy of Desk Book of Dissolution Science and Application - 1st Edition - within 30 days of the event.
3. Participation certificate
